

FACTS  
Count 1 breach of contract

1. Me and defendant met july 4th weekend 2016, when he came up to me asking for directions or w.e and we added each other on Facebook and then that night, we were out drinking
2. Then, we were in his hotel room and I was like chillen on the bed and had like just barely fell asleep when I felt him stick it in and I got up and I was like what the hell was that. And then we were at the door and I was like did you even have a condom on and he was like no and I was like omg ew. Then I went down to the lobby and texted this other kid and was like "duuuude this guy is a weirdo", and he was like "lol im at a bbq", "wanna smoke"? And I was like "👁👁"
3. Then I fell asleep sitting at the table in the lobby and when I opened my eyes santiago was sitting in front of me, so then I walked out the hotel and looked at my phone and this kid was like "hold on i'm getting pulled over" and I was like damn he's gonna get arrested
4. Then I walked to the end of the street and I was like damn and defendant was like "I'm sorry I'm sorry ill call u an uber" "if you come back up I'll sleep on the couch". And i was like mad tired and I was like w.e maybe it was a misunderstanding so we went back up to the room and went to sleep on opposite sides of the room
5. Then in the morning we was havin sex bcuz reasons and i was like very clearly, no bb. But he didn't care and took it off and it was like mad fast but I could lowkey tell and i was shook and he was like acting like nothing happened and i didnt say nothin and left asap and was thinking like well that was intentional so the other thing couldnt of been a misunderstanding
6. Then later I was like did what I think happened happen? Cuz I wasn't sure before I left so I thought maybe he didn't or did it on the sheet somehow. So I was like idk should I say sumthin, so then I messaged him about it and he was like "haha wwyd if you got pregnant" and I was like why you say that and then i deleted the convo and went to cvs
7. Then I got back and had an unread message from him and opened it and it was like "I came in you lol". And I was like omg ew why would you do that and he wouldn't answer. And I was gettin vibes that this was sumthin he do alot so i was thinking like he prob got vd. So then I went to the weekend clinic and they were like there are meds you can take in case he's got aids but you got to start asap and take them for a month or wait it out cuz of the window period
8. Then I messaged him and was like its the summer like im not trying to do all this so u better not have hiv, then he switched up and was like what u even talking about, nothing happened I told you the condom broke "I even showed u". But then he sent me proof he was clean nd i let it go
9. But then in early August 2016 I went back and they were like "sry but u got herpes" and I was like "it couldn't be nothing else?" and they were like no and if its negative its probably new and I was like omg my life is over, so he really was trying to give me something
10. And I was shook and i was like omg I'm a diseased monster and everyone knows. And I asked him if he knew if he had it but he wouldn't answer. So I took that as a yes. And I was like a straight zombie nd was dry heaving all the time and could only drink iced coffee so i lost mad weight nd my whole left side was numb nd i couldn't breathe. And id wear sunglasses to the club cuz I couldnt stop crying. And i slept with my gun next to me and was mad scary nd jumped every time I saw a shadow and i was afraid I was gonna have a heart attack or die at any moment nd was like omg why am I like this, im going crazy and i was like i want revenge nd was gonna shoot myself
11. So then one night I was out I was talking to my friend about this and she was like telling me how when she got shot she got \$30k and I was like whaat??? And she was like ya my pd did it. And I was like damn that's crazy i been missing out.

12. So I looked for one online and they were like ask the police, but I was too afraid of getting arrested
13. Then in October 2016 I found out that I was probably negative fr and it was cuz of the truvada or the other one but no one knew that could happen. And I was like thank you lord i am free but I was still shook no matter how much i meditated or how much I smoked and by then id lost my jobs and dropped mad classes and had mad credit card debt and I was like idk what to do
14. Then he called in Dec 2017 and was like "I'm calling everyone I've wronged to make amends" and he inhaled and exhaled mad deep and was like "sorry". Then after a minute of silence he was like "i used to b an incel, but I've since redeemed myself" Then he said he's willing to go to jail over this because "that's how sorry I am" and I was like "ok go" and he was like "maybe I wanna go, orange is my color u know" and so in the end we agreed hed give me \$25k
15. Then i waited and nada, then I realized I was running out of time so then I asked the police but they were like moneys not our area. Then in Feb 2018 I found out you can go to court without a lawyer and I was like damn thats crazy
16. Then I was on Facebook trying to download old messages when I accidentally invited him to messenger which made me realize I was unblocked so I messaged him and was like "u r trash, c u in hell". Then he responded a few days later and was like "i unblocked u for a reason" "it was not ur fault u not to blame" and "I will make this right, even if it means going to mass nd going to court, even if it means jail and being an offender for life" and i was like omg i have it in writing
17. Then i sued him and bcuz he wrote a fake answer nd defaulted i found out he evolved into a wannabe killer and i was like omg im not the only one. Then I looked up the directions on google maps and found out court is the government and i was like lol but i paid already so i was like w.e
18. So then we were in court and i had my little recording going and he was like "im sorry for bein rapey but I got no money" then we had like a trial and while still on recording instead of explaining his side he was like "see what had happened is that I have erectile dysfunction", and i was like omg ew, then his voice trailed off and he skipped to the morning and was like the condom broke and was like "it's called stealthing, they don't see it like we do".
19. Then he was like shes talking shit, like i said what i said, I wanted to delete posts but their site has no delete button so i kept posting things to cancel out past things. Then he won. Then i asked customer service and they were like u cant delete nothing but u can seal it and you got to go back for that bcuz idk y
20. So then in august we were back and he was like "haha u didn't even win a dollar" and I was like "i dont care, you broke and a liar" and he was like "no I'm not" and I was like "i got it on tape". And he was like "what? delete that". And I was like for "\$25k ill delete it". And he was like nvm. Then after further conversation we agreed on \$800
21. So this time i wanted it in writing so I pulled a napkin out my bag and wrote out our agreement and we signed it. Then he started sneezing mad times in a row and then grabbed the napkin to use as a tissue and I was like "duuude don't sneeze on the contract." But it was too late, we had to write out another
22. So I did my half and he has sent \$525 but has yet to send the remaining \$275
